IRF4 DTG Wash Results

DTG (Direct to Garment) / DTS (Direct to Substrate) Printing with UV LED Inks is Now Available in One Printer

Print Mode: Dark Shirt Quality

Notes: Garment is printed with IRF4 ink and compatible Direct Jet F4 Edition UV LED printer.

DCS recommends hovering heat press or using a heat tunnel, post print, to ensure all UV monomers are cured.
DTG (Direct to Garment) / DTS (Direct to Substrate) Printing with UV LED Inks is Now Available in One Printer
No Pretreatment Necessary
