Direct Color Systems’ IRF6T White, All IRF4, and All IRF6 Inks Pass CPSIA Textile Testing

The complete report on each ink set can be found within the remaining pages of this document.

For the purpose of this testing, DCS provided the following ink samples:

- Cured swatches of IRF4 ink
- Cured IRF4 ink printed to a Black Gildan, OEKO Tex Certified Shirt
- Cured swatches of IRF6 ink
- Cured IRF6 ink printed to a Black Gildan, OEKO Tex Certified Shirt
- Cured swatches of IRF6T White ink
- Cured IRF6T White ink printed to a Black Gildan, OEKO Tex Certified Shirt

**PLEASE NOTE:** The attached test results do not extend to all products printed with IRF6T, IRF4 or IRF6 ink. While all of the items outlined above pass the CPSIA textile requirement, it is the responsibility of the customer/operator/printer owner to have their finished products tested and approved when printing to other objects and materials. The finalized printed products (including packaging) must be tested to ensure proper compliance. The test results stated within the rest of this document refer to the cured ink and graphic printed to the OEKO Tex certified garment only.
