1 Identification

Product identifier

Product name: IRF6 UV-LED Ink, Yellow

Article number: I-6114 Application of the substance / the mixture: Printing inks

Details of the supplier of the safety data sheet Direct Color Systems 99 Hammer Mill Rd. Rocky Hill, CT 06067-USA Manufacturer/Supplier: Direct Color Systems 99 Hammer Mill Rd. Rocky Hill, CT 06067-USA Emergency telephone number US: 24/7 CHEMTREC 1-800-424-9300 Emergency telephone number International: 24/7 CHEMTREC +1 703-527-3887

2 Hazard(s) identification

Classification of the substance or mixture

| Skin Corrosion 1C | H314 | Causes severe skin burns and eye damage. |
|--|-----------|--|
| Eye Damage 1 | H318 | Causes serious eye damage. |
| Sensitization - Skin 1 | H317 | May cause an allergic skin reaction. |
| Carcinogenicity 1A | H350 | May cause cancer. |
| Toxic to Reproduction 1B | H360 | May damage fertility or the unborn child. |
| Specific Target Organ Toxicity - Single Exposure 3 | Н335-Н336 | May cause respiratory irritation. May cause drowsiness or dizziness. |
| Specific Target Organ Toxicity - Repeated Exposure 1 | H372 | Causes damage to organs through prolonged or repeated exposure. |

Label elements

| Hazard statements |
| Causes severe skin burns and eye damage. |
| May cause an allergic skin reaction. |
| May cause cancer. |
| May damage fertility or the unborn child. |
| May cause respiratory irritation. May cause drowsiness or dizziness. |
| Causes damage to organs through prolonged or repeated exposure. |
| Precautionary statements |
| Obtain special instructions before use. |
| Do not handle until all safety precautions have been read and understood. |
| Do not breathe dusts or mists. |
| Wash thoroughly after handling. |
| Do not eat, drink or smoke when using this product. |
| Use only outdoors or in a well-ventilated area. |
| Contaminated work clothing must not be allowed out of the workplace. |
| Wear protective gloves/protective clothing/eye protection/face protection. |
| If swallowed: Rinse mouth. Do NOT induce vomiting. |
| If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. |
| IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue |
| rinsing. |
| Immediately call a poison center/doctor. |
| IF exposed or concerned: Get medical advice/attention. |
| Specific treatment (see on this label). |
| Get medical advice/attention if you feel unwell. |
| If skin irritation or rash occurs: Get medical advice/attention. |
| Wash contaminated clothing before reuse. |
| Store in a well-ventilated place. Keep container tightly closed. |
| Store locked up. |
| Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Additional information: |
| 5.3 % of the mixture consists of component(s) of unknown toxicity. |

4 First-aid measures

Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:

Immediately call a doctor.

Drink copious amounts of water and provide fresh air. Immediately call a doctor.

Most important symptoms and effects, both acute and delayed No further relevant information available.

Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents: Use fire fighting measures that suit the environment. **Special hazards arising from the substance or mixture** No further relevant information available.

Advice for firefighters

Protective equipment: No special measures required.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Dilute with plenty of water. Do not allow to enter sewers/ surface or ground water.

Version: 3.0

Reviewed on 09/27/2023

Product name: IRF6 UV-LED Ink, Yellow

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Use neutralizing agent.

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

Handling:

Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Open and handle receptacle with care.

Prevent formation of aerosols.

Information about protection against explosions and fires: Keep respiratory protective device available.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: No special requirements.

Information about storage in one common storage facility: Not required.

Further information about storage conditions: Keep receptacle tightly sealed.

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: No further data; see section 7.

Control parameters

Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Store protective clothing separately.

Avoid contact with the eyes and skin.

Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air. **Protection of hands:**

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

Printing date 09/27/2023

Version: 3.0

Reviewed on 09/27/2023

Product name: IRF6 UV-LED Ink, Yellow

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. **Eye protection:**

Tightly sealed goggles

9 Physical and chemical properties

10 Stability and reactivity

Reactivity No further relevant information available.

Chemical stability

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

Possibility of hazardous reactions No dangerous reactions known.

Conditions to avoid No further relevant information available.

Incompatible materials: No further relevant information available.

Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

Information on toxicological effects

Acute toxicity:

LD/LC50 values that are relevant for classification:

ATE (Acute Toxicity Estimate)

Oral LD50 2,722 mg/kg

Dermal LD50 22,449 mg/kg

2399-48-6 Tetrahydrofurfuryl Acrylate

Oral LD50 928 mg/kg (rat)

2235-00-9 2H-Azepin-2-one, 1-ethenylhexahydro-

Oral LD50 500 mg/kg (ATE)

Dermal LD50 1,100 mg/kg (ATE)

Primary irritant effect:

on the skin: Strong caustic effect on skin and mucous membranes.

on the eye: Strong caustic effect.

Sensitization: Sensitization possible through skin contact.

Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Harmful

Corrosive

Irritant

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

Carcinogenic categories

12 Ecological information

Toxicity

Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. **Behavior in environmental systems:** Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. **Ecotoxical effects:** Remark: Very toxic for fish Additional ecological information: **General notes:** Water hazard class 3 (Self-assessment): extremely hazardous for water Do not allow product to reach ground water, water course or sewage system, even in small quantities. Must not reach bodies of water or drainage ditch undiluted or unneutralized. Danger to drinking water if even extremely small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Very toxic for aquatic organisms **Results of PBT and vPvB assessment PBT:** Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations. **Recommended cleansing agent:** Water, if necessary with cleansing agents.
