

	Shipment Policy for All MultiSolve™ UV LED Inks	Doc ID: SP-14-0001
		Rev: 1

Direct Color Systems Implements Policy to Ensure Prompt Delivery of Fresh Ink

UV LED Ink Does Expire

Similar to most commercial chemicals, MultiSolve UV LED inks carry a shelf life and 'Use By Date.'

Review the Label

All MultiSolve UV LED should be used within 12 months of the 'Date of Manufacture' (listed as the DOM on all Multisolve UV LED ink bottles). For your reference, each label includes the DOM and 'Use By' dates.

Ship Fresh

Like most accepted commercial chemical policies, DCS will be shipping all inks with a minimum of ½ of the shelf life remaining. In an effort to minimize costs and keep inventories from accumulating at both DCS and its vendor, the ink is made in economical sized batches by our vendor. This allows us to ensure that we always have fresh stock to ship out to our customers the same day the order is placed.

We Have You Covered!

DCS has instituted changes to the procedures we employ to ensure that we reduce the inventories as much as possible to ensure the freshest inks are shipped to our customers, but still maintain enough inventories to ensure prompt delivery.
